

Shallow Sport features three modelsd from 15 to 20-feet in length

Shallow Sport among elite

In the span of five short years, Shallow Sport Boats have become one of the most popular and elite bay fishing boats in the Laguna Madre Bay.

Now located five miles west of Laguna Vista on Highway 510, Shallow Sport continues to produce one of the finest rigged and ready to fish boats. Owner Rex Hudson started the business with his father and the standard 18-foot model. Today, he has three lines of Shallow Sports from 15-20 feet in length.

One of the latest models is the 20-footer with sides, which gives the owner and his or her fishing companions greater comfort and security while flying across the Laguna Madre.

During the Texas International Fishing Tournament, there are a great many Shallow Sports entered by veteran anglers. Hudson also will have a

ready and rigged Shallow Sport on display at the Port Isabel Boating & Fishing Exposition at Southpoint Marina during TIFT.

"We have the most expert design as far as any other boat manufactured in the Valley. It is the smoothest, driest and shallowest running boat manufactured today," Hudson said.

Manager Steve Smith stated Shallow Sport offers Evinrude outboards and Shoreline trailers for their boats, while also giving reliable service including engine and fiberglass repair.

You don't have to have a Shallow Sport to have your boat brought in for servicing, either.

With over 550 boats sold and distributed to-date, Shallow Sport will continue its excellence in producing the finest bay fishing machine available anywhere.
